

# SC-2

## 6 to 14 cell Electronic Speed Control

Water cooling mandatory for 8 to 14 cells

Schott key diode required or your ESC WILL blow up, especially with hot 05 motors.

LED glows red when fully off and Green when fully on. Must show both to work properly!

### CONNECTION INSTRUCTIONS

- 1) Connect motor "+" to battery "+".
- 2) Connect ESC Green to motor "-"
- 3) Connect ESC Red to motor "+"
- 4) Connect battery "-" to ESC Black

**DISCONNECT BLACK TO BATTERY WHEN YOU ARE NOT ACTUALLY RACING!**
